

I love XM radio and all that it provides me and my family. I have 4 subscriptions that I have given to family and friends across the country. They really enjoy it!

The National Association of Broadcasters (NAB), the organization that represents the large radio and television owners, is using its lobbyists, campaign contributions and political influence to have Congress and the Federal Communications Commission limit XM's ability to provide XM Instant Traffic & Weather channels.

I am against their efforts. We don't want their censorship on the innovations that XM brings to us. XM is like cable TV. I can get WGN from Chicago on it, but it does not threaten local TV stations. I pay monthly for these services and deserve them.

Thank you for your consideration.

Respectfully,

Jeff Cornish
